Present | Headwinds

WEX International Travel & Corporate Payments Spend H1-2024

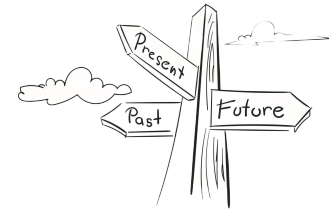

Spend Volume in US \$

- Market recovery complete, growth rates normalizing
- Competition intensifying, margins compressing
- Booking.com new deal +/- and potential path towards self-issuance
- Regulatory challenges e.g. UAE
- Burdensome complexity in WEX systems and processes, and velocity of product delivery
- Resourcing challenges

WEX International Travel & Corporate Payments

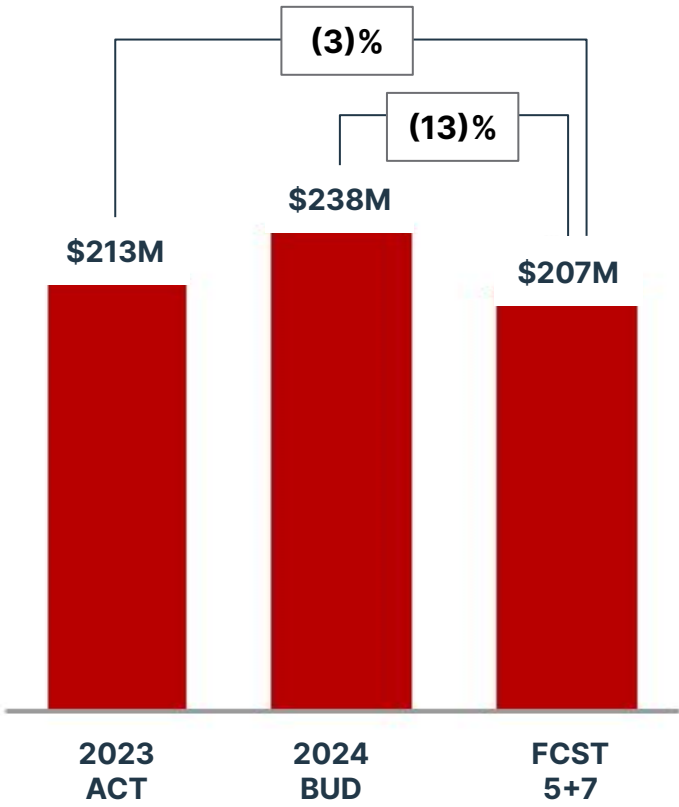

Spend Volume

in US \$B

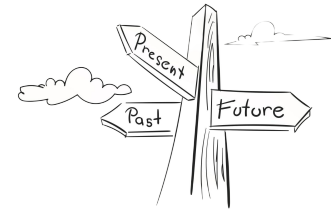

Net Revenue

in US \$M

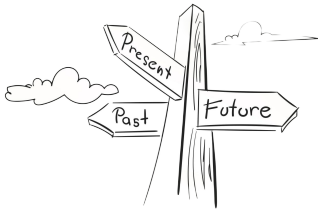

Present | Expectations for H2

- **Identify and execute on short term [H2] revenue opportunities**
 - Extend credit terms*
 - Tactical product enhancements*
 - More BINs*
 - New Business push*
 - Product optimization opportunities ...*
- **Validate 'flexible funding' investment for EU/UK**
 - First customers using EnCompass prefunding*
 - Share of Wallet capture with blended/hybrid solution*
 - Identify 'path to revenue'*
- **Ready ourselves for 2025**
 - Portfolio in good health*
 - Strong New Business pipeline*
 - Deep knowledge about customers' plans, risks and opportunities going into 2025 Budgeting*
 - Super-charge areas of enablement, insights, etc.*
- **Extreme clarity on our [CPP] investment 'asks'**
 - Inclusive of geographic expansion (ref. Brazil)*

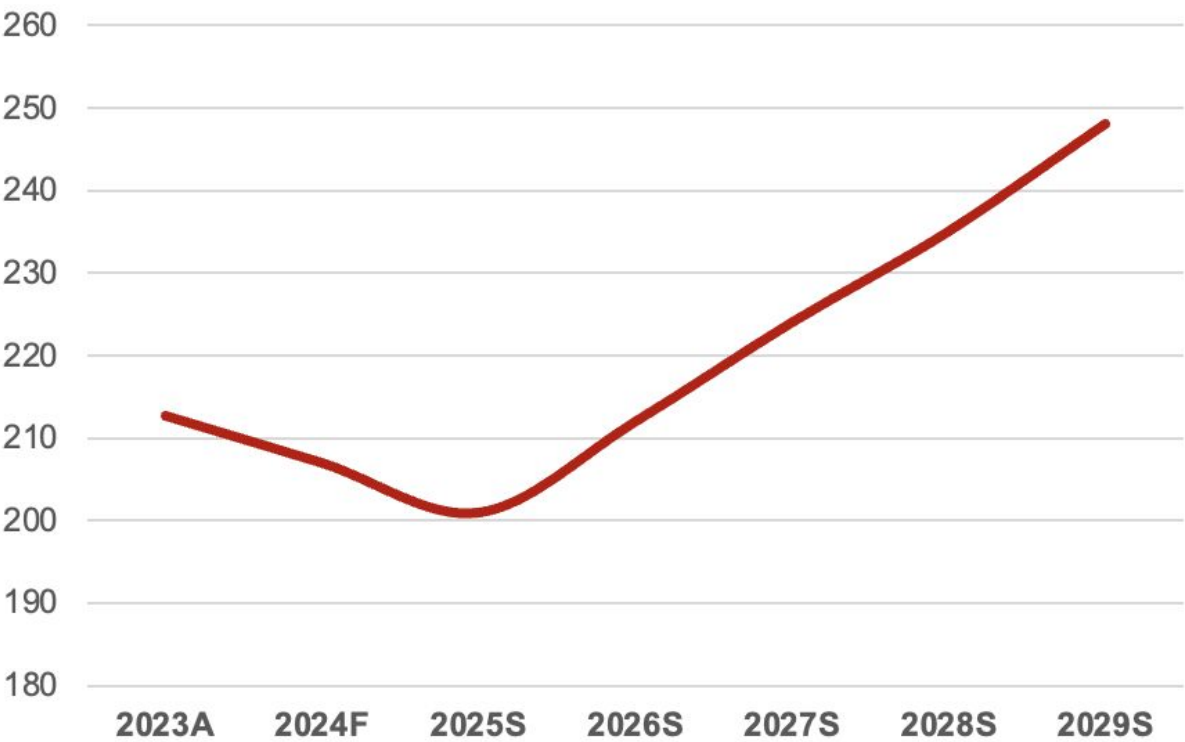

Future | Growth Challenge

WEX Global Travel

Growth Algorithm 2023 - 2029

Net Revenue in US \$M

YOY Growth

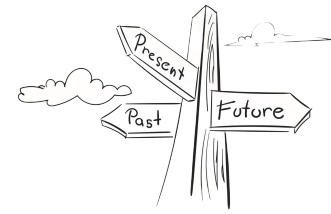

0.6% (6.3)% 5.7% 5.4% 5.0% 5.6%

Model Growth	Expectation
4%	12%+

Great plan. Could we get some more details?"

Future | Key Strategy Questions

Large and complex is where WEX differentiates the most

How do we further entrench ourselves with the 'Top-5' and unlock more growth opportunities?

Are we at risk from further self-issuing activity of the 'Top-5'?

Intensifying competitive environment

How should we respond to the current pricing pressure to protect our leadership position?

Can we outrun margin compression with volume growth?

Is there an attractive mid-market opportunity and what do we need to do to win?

What's our durable competitive advantage - can we deepen the moat?

Is there a roll-up opportunity?

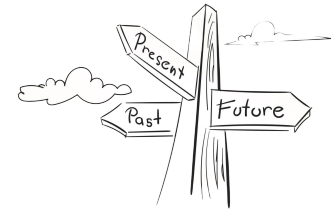

Slowing market growth 5-7% the new normal

What are the adjacent future growth opportunities in the next 3-5 years? (ref. Geo Expansion)?

What is our 'Air' strategy and are we doing enough?

Is there a viable path to leveraging our existing VCN assets outside of B2B Travel?

Future | Strategy Simplified

Core Travel VCN
Payments Market

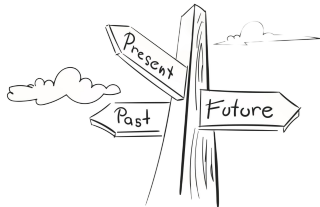

\$160B

Protect and grow this!

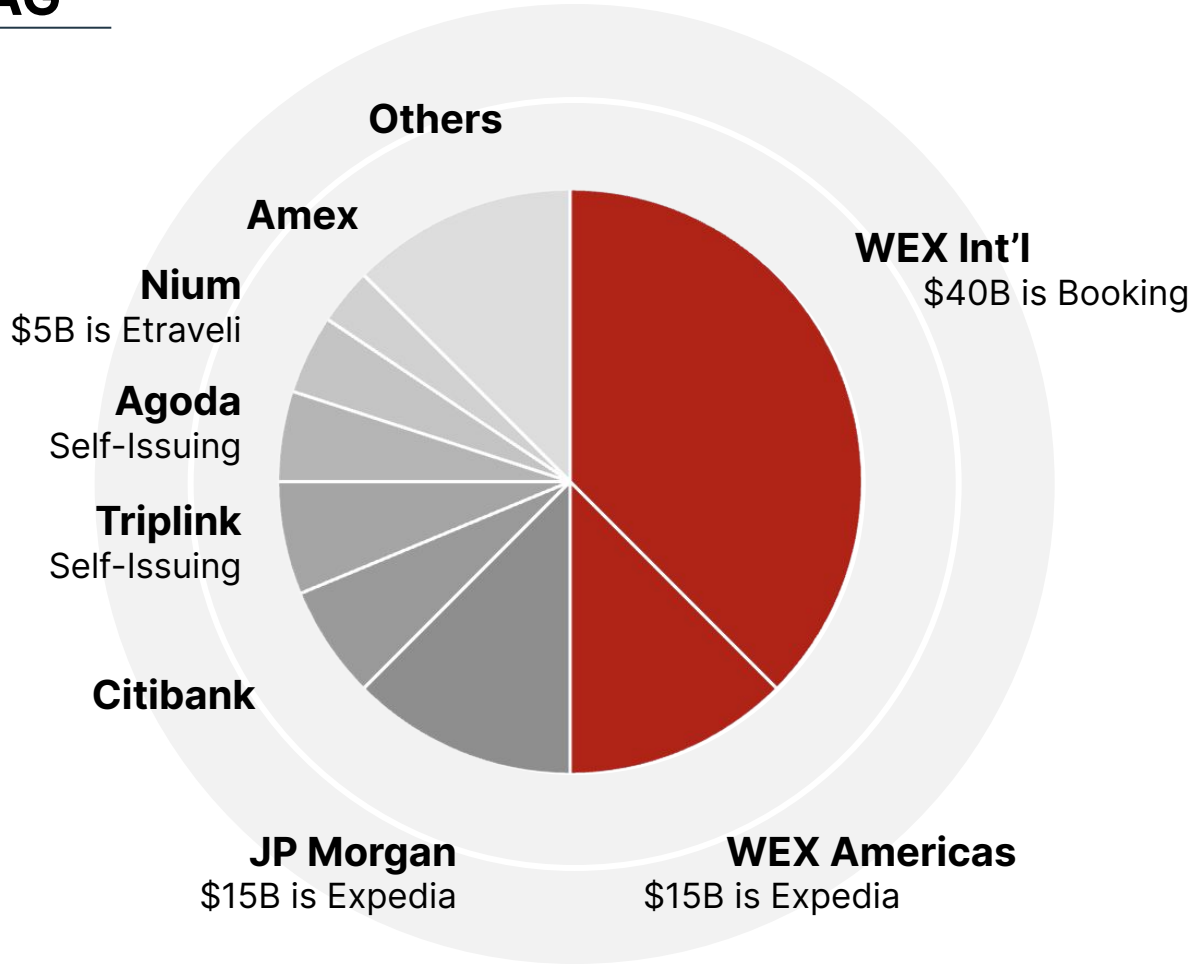

Expand into this!

**Don't get distracted
by these !**

Future | Protect and Grow the Core

SWAG

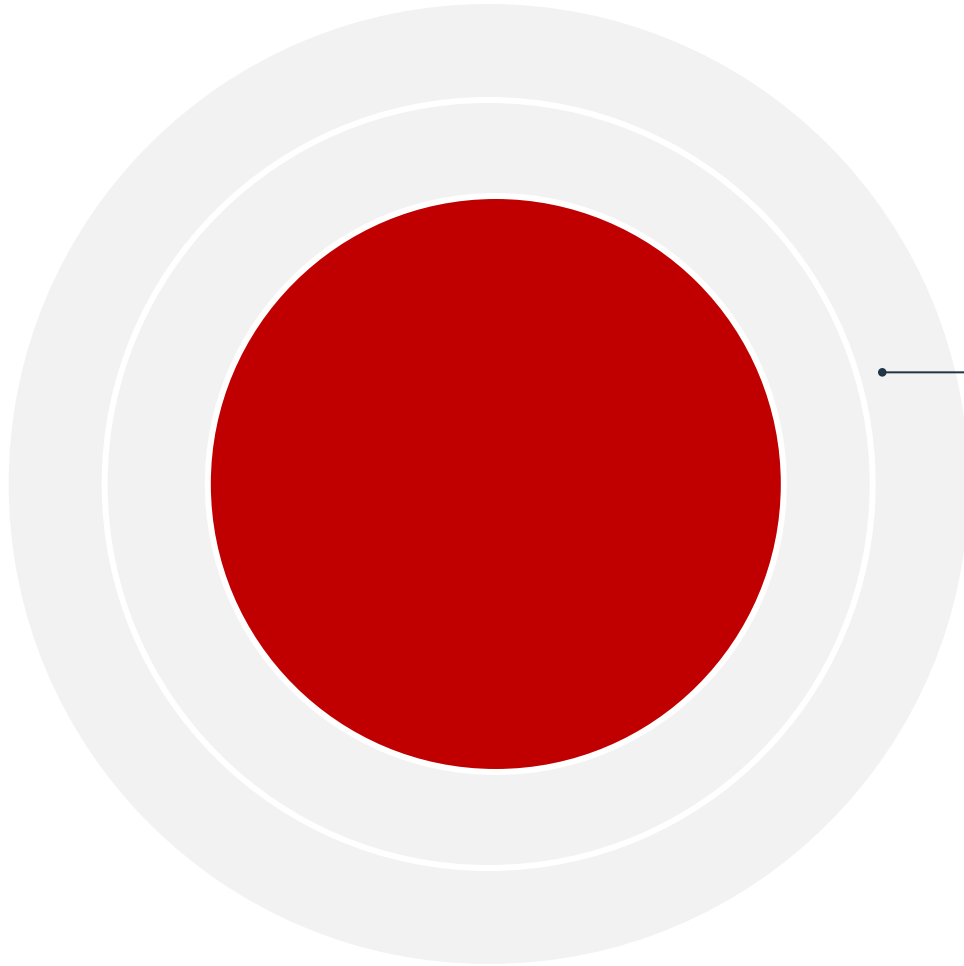

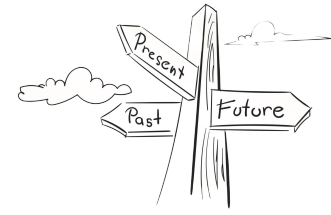

WEX has an estimated **50% Share** of Travel VCN Payments

Hand to hand combat with competitors
Go deeper into the mid-market and long tail
New models e.g. Payment Consolidators

Future | Extend Addressable Market

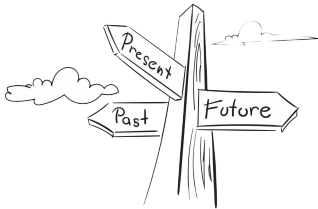

Adjacencies

Examples:

- Geographic Expansion
- JPY Domestic for Rakuten
- Kiwi Ryanair Closed Loop
- Hotelbeds Pay-In Enablement
- Booking Virtual Terminal
- Cash to Card (e.g. via Airline)
- Mobile Use Cases
- Deeper into TMC
- What others ?

PARKING LOT

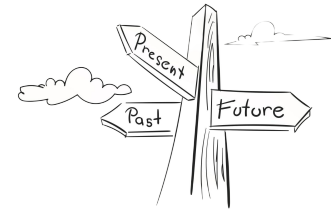

Appendix | New Business Momentum

New Business Pipeline at 14th June 2024		Number of Opportunities	Annualized Spend US\$	
	Qualified Opportunity	35 (P/M 30)	\$803M (P/M \$850M)	
	Evaluating	13 (P/M 11)	\$280M (P/M \$275M)	
	Proposal	15 (P/M 13)	\$555M (P/M \$490M)	TUI - technical discovery call scheduled for July 4th CWT FR - Awaiting financials for credit review
	Contracting	6 (P/M 6)	\$338M (P/M \$390M)	DNATA - confirmed resource now available to resume project; aspirational go-live in Autumn with mass migration from Barclays 01-02-25
	Closed/Won	6 (P/M 4)	\$120M (P/M \$50M)	JTA Holidays and LodgeLink contracts signed
	Revenue Live	3 (P/M 3)	\$80M (P/M \$80M)	
	Lost Opportunity	33 (P/M 29)	\$677M	Reasons Lost - Require extended [unsecured] credit terms - Competitor pricing - Micro-enterprise - e.g. OTA satellite offices - Not a priority - Jurisdictional issues - e.g. UAE
		43 (P/M 37)	\$1,373M (P/M \$1,290)	

(P/M \$XX) = prior month
