2026 Operating Plan - Marketing

Amy Kellinger, SVP Marketing
Peggy Smith, Director of Marketing Operations
Cuthbert Langley, VP Corporate Marketing
Jenny Matheny, VP Strategic Marketing
Rosa Perez, Finance

2026 | Global Marketing Executive Summary

Mission Statement: Operate as a growth engine for WEX by strategically building and amplifying our global brand identity, maximizing market impact, demonstrating agility in market response, and meticulously driving smart marketing ROI to accelerate profitable revenue expansion across all segments.

Marketing Objectives:

Acquisition & Pipeline: Amplify Marketing's impact on new business sales pipeline

Base Growth: Enhance Marketing's impact on growth of existing clients (upsell / cross sell) & customer retention

AI-Driven: Transform Marketing into an AI-driven organization, integrating machine learning to increase efficiency by 15% and establish WEX as an intelligent marketing innovator.

Brand: Execute a multichannel brand storytelling strategy to elevate WEX perception, enhance awareness, and position WEX as a leading innovator across key markets.

Tailwinds

- Fully optimized [agile pod model](#) aligned to each mktg competency and LOB ([NAM](#)) designed to drive speed to market
- [Wexcard.com](#) refresh underway, set to go live Feb 1st.
- Enhance Conversions live on wexcard and Shell, 300% increase in wexcard app quality
- Fully staffed performance mktg team across all LOBs.
- WEX FSM refresh showing positive signs at top of funnel
- Strong mktg sourced CP Direct pipeline
- Increased mktg driven 10-4 apps in Q4, fueling +6 xs/mth

Headwinds

- Lack of product marketing support across NAM mid-market / gov sec
- Product resources / funding for DCA improvements required to increase mktg driven app volume
- Lack of CDP for NAM prevents customer marketing from driving speed to market
- TruckerPath go live delays have made forecasting impossible for 10-4 revenue
- Increased digital media and event costs with flat performance marketing budget for 10-4, CP, NAM, OTR, FSM.

Outcomes

\$4 to \$1 revenue return ratio on acquisition mktg spend: NAM SMB
~\$30M Mktg sourced Inside Sales NAM New Acquisition Revenue
~\$4.5M Mktg booked revenue: H&B

\$7M revenue goal: 10-4
30% new acquisition booked revenue for CPS Direct
~\$4.2M Mktg generated revenue: : NAM Field Sales

TBD* Telematics
143 FSM Mktg sourced units sold

2026 Marketing | Core Financial KPI

Overview: Continuing from the foundation built in 2025, Mktg will continue to own revenue goals as well as leading and lagging indicators of funnel engagement globally and by LOBs. The scorecard will be presented monthly in MOR and include 15 core KPIs

Monthly KPIs:

1. Return ratio NAM mktg (expanding to CP, OTR, FSM & Benefits once supported by finance)
2. NAM IS revenue (100% mktg booked rev)
3. NAM backbook retention efforts (~\$5M revenue)
4. CPS Direct booked revenue (30% mktg sourced)
5. CPS Embedded booked revenue (new in 2026)
6. OTR Fleet One Edge apps (100% mktg)
7. WEX FSM units sold (143 / 20% mktg sourced)
8. Telematics opps (100% mktg sourced) ~2700 units
9. 10-4 revenue (100% mktg / TP sourced)
10. Benefits booked revenue (~\$4.5M mktg sourced)

Leading Indicators

11. Media Impressions
12. Proactive Media Wins
13. Brand awareness and reach
14. Brand Brand Perception & Sentiment
15. Brand loyalty and advocacy
16. Brand engagement and consideration

Corporate	7.2	6.7	-7%		
Total Global Marketing	79.8	84.4	6%	2,784	3%

Key Highlights

- Marketing & advertising expenses went up slightly (1.4%) due to the cost of doing business
- Aligning marketing dollars and spend to org priorities: bp addition and increased Brand focus
- Marketing expense reductions includes 3 rounds of cuts (2 shown in walk).
 - Q3 2025: \$2M give back (funded \$650K for CP)
 - Round 1 '26: \$1.2M give back from PT data models, professional services and CP customer summit
 - Round 2 '26: \$1.5M give back from oil partner contractual marketing
- Comp changes include \$1.9M for fully ramped in seat employees and \$800k in a H&B true up

Budget Walk

Risks

- \$500k in reduction for EV was not in budget to reduce since the team did not spend in 2025
- \$190K gap in budget required for International HC
- Funding is still pending for CDP which puts ~\$2M in revenue at risk for back book and cross-sell efforts
- If DCA updates are not delivered, ~\$4M in revenue is at risk
- TruckerPath go live ~\$7M revenue risk for OTR
- Capital Planning funding is TBD for Corp Payments mktg support putting increased rep HC for Direct and the expansion into Embedded at risk

2026 Mktg Initiatives | Summary

Revenue Marketing

- Full-Funnel ROI: Move beyond platform-only reporting (Google Ads, Meta) and **implement a robust, unified view of our data** (MMM - Marketing Mix Modeling) to understand the **true incremental value of each dollar spent**, not just the last click.
- Expand marketing support into CP Embedded
- Amplify mktg generated leads / revenue for NAM Field Sales & gov sec.
- Use AI to dynamically personalize content, offers, and channel interactions for every stage of the customer journey.

Digital Marketing

- Launch **Enhanced Conversions** (*1st party data designed to drive lookalike audiences*) moving from quantity to quality, reallocating spend away from low intent audiences to highest converting segments (Smart Bidding).
- Fleet size digital targeting campaigns
- Expanded Influencer Program
- Form optimization & location targeting
- Trade-based audiences (The Home Depot Network)
- Launch new brand / creative refreshes across programmatic, paid social, and web focusing on awareness

Event Marketing

- Seize pivotal moments to **maximize impact**, driving increased engagement and brand visibility.
- Deliver **seamless & meaningful experiences for our customers** and partners fostering stronger relationships and loyalty
- Demonstrate clear and measurable **ROI from all events**, ensuring we contribute to business growth.
- **Optimize our new event technology for maximum investment return**, enhancing efficiency and delivering superior event outcomes.

Marketing Automation

- Expand automated **full funnel optimization** for SB and Mid Market acquisition to increase conversion and reduce CAC and maximize our return on ad spend
- Protect and grow NAM back book revenue by **automating effective customer engagement in moments that matter**; accelerate new customer activation, increase retention and cross-sell.
- Enhance the oil partner digital customer experience **leveraging partner investment in their own brands** for growth and retention
- **Accelerate speed-to-market** for NAM customer retention and growth initiatives with CDP powered audiences and real time triggers (*addtl. agencies onboarded to drive speed 2 market*)

Marketing Intelligence

Informed decision-making to optimize marketing performance: Measure, attribute, and forecast the effectiveness and ROI of marketing campaigns and channels, ensuring resources are allocated efficiently to maximize impact.

2026 Key Dependencies | Summary of key dependencies and needs across the organization

Function	Key dependencies/needs	Confidence in Dependency and initial mitigation plan
Product Mktg	Lack of in-house product marketing across NAM Mid-Market, Gov Sec & Partners	 3rd party agencies have been put on retainer and work is being outsourced
Product	DCA: Journey simplification (~\$3M) DCA: Pending apps (~\$1M)	 Project Aquabreeze - progressing
Product	NAM CDP , increase speed-to-market by 30% and grow revenue (~\$2M)	 Funding pending
Product	Web Refresh 2.0 - rebrand and launch of new website / platform capabilities (~\$4M)	 99.9% funding approved Waiting on assigned product manager
Product	Onboarding experience for 10-4	 Meeting cadences in place / slow progress
Tech	10-4 requirements for TruckerPath go live	 Meeting 2x/week. Dependencies on 3rd party platforms (Fiserv)
Risk & Compliance	Alignment on vintage performance & charge offs Credit Journey Enhancements (Experian Credit Unlock, BVI, etc) ~\$2M Refreshed pre-screen model	 Weekly meetings w/ Chad Williams. Gap is alignment with Annie
Legal	Agile process for approving mktg claims	 Dedicated resources in Legal to allow for quick turn approvals on all customer facing mktg claims
Finance	Build new/sustainable ROI models for Benefits, CP, FSM, & OTR, demonstrating \$1 spent in mktg drives \$x in revenue (LTV)	Requires finance HC / support

Brand Strategy: Help WEX grow faster, reach more customers, and strengthen loyalty by being clear, consistent, and trusted.

Brand Recognition and Consistency

Make WEX easy to recognize and reliable to experience—every interaction feels like WEX

- Refresh and unify brand visuals across LOB campaigns for a consistent, standout market presence.
- Update top five digital assets and partner with Digital to deliver the next-generation brand experience.
- Finalize and launch the refreshed style guide with UX and Product teams.
- Communicate the new visual style guide to Partners to ensure alignment.

Brand Value Prop, Architecture, & Narrative

Create one unified story that connects LOB and products, making WEX easier to understand

- Launch new brand & develop brand positioning for each LOB, key segments, and core competencies.
- Launch master brand arch and transition roadmap for new and existing products.
- Build a brand consistency tool to vet new product launches against the core brand story.
- Partner with Sales Enablement to develop templates that help teams position WEX.

AI-Driven Brand Intelligence

Use AI to accelerate learnings and make interactions smarter, faster, and more personal

- Create AI Brand Gems: Train AI on brand guidelines and top content to generate reusable, on-brand assets for faster, consistent messaging.
- Use AI for Insights: Identify customer needs and market trends quickly to produce timely, relevant content.
- Advance Gemini Deep Research Models: Evaluate brand health, perception, and performance for each line of business twice a year.

Brand Insights & Measurement

Establish a data-driven understanding of our brand to guide strategy, track performance, and inform content and messaging

- Build a brand dashboard to visualize key metrics and trends.
- Track existing KPIs on awareness, perception, loyalty, and equity while preparing for a full brand study.
- Commission a third-party brand study to establish a baseline and measure brand affinity.
- Identify high-impact content themes for customer stories, evidence, and marketing initiatives.
- Develop key brand personas by researching target audience needs, behaviors, motivations, and pain points.

Corporate Marketing: We shape and share the WEX story to inspire confidence, engagement, and advocacy, inside and outside of WEX.

When we execute on that mission, we will:

Drive Growth

Build preference for WEX by showcasing innovation, customer impact, and thought leadership.

- Source, develop, and share compelling customer-centered stories that create a preference for us over competitors.
- Define and develop core enterprise narratives that support brand messaging and attributes
- Leverage PR and other reputation-building strategies to remove barriers to customer buying behaviors.

Business Indicators of Success: Increased customer evidence stories, net-new customers across LOBs, number of top-of-funnel campaigns

Secondary goal: Support Reduction of Company Operating Costs

- Drive Communication employees' effective and safe use of Generative AI for Communications-relevant use cases

Business Indicators of Success: Increased employee productivity

Connect Employees

Simplify strategy, reduce information overload, and foster a shared sense of purpose.

- Improve understanding and alignment to WEX strategy
- Develop mechanisms for enterprise-wide, executive-driven recognition across all teams

Business Indicators of Success: Higher 'confidence of strategy' scores in surveys; higher employee recognition score in engagement survey

Secondary goal: Retain & Attract Talent

- Drive employee behaviors that are consistent with our desired company culture.
- Manage change communications and prevent employee information overload.
- Build employee connection to the organization and to each other.
- Promote our employment brand to top talent to create preferences for us over competitors.

Business Indicators of Success: Lower employee attrition, higher engagement scores, stronger awareness of WEX's strategy

Empower Leaders

Equip executives with the messages and tools to communicate with clarity and confidence.

- Provide resources and toolkits to help senior leaders (incl ELT) communicate more effectively
- Craft leader communications that builds trust and drives positive action with internal and external audiences.

Business Indicators of Success: Higher 'leadership effectiveness' and 'trust in leadership' scores in internal surveys.

Secondary goal: Improve Success of Leaders' Comms Strategies

- Improve leaders' strategic comms decisioning by advising on audience-relevant consequences and trade-offs.
- Explore opportunity to develop key employee personas

Business Indicators of Success: Leadership takes productive actions in response to employee feedback.

Protect Reputation

Anticipate and manage issues that could erode trust in the WEX brand.

- Monitor for, escalate and mitigate impact of potential crises & issues to CMLT
- Develop external communications strategy that increases presence & confidence in WEX's direction

Business Indicators of Success: Reduced impact and longevity of crises, number of corporate awards and speaking engagements

Secondary goal: Prevent and Rectify Critical Perceptions of the Organization

- Monitor and manage stakeholder sentiment against critical issues to drive supportive behaviors.
- Leverage PR and stakeholder engagement to drive positive actions (and prevent negative actions) from investors, employees, activists, government and industry.

Business Indicators of Success: Low or no impact from industry and reputationally-relevant risks/issues, reduced scrutiny from government and activists.

Corporate Marketing: We will develop four key competencies to support our mission.

Content Strategy

What are WEX's key narratives, when/how/with whom are they shared?

Develops internal communication and external storytelling strategies and tactics to ensure all messaging resonates, compels action, and is infused with customer evidence.

2026 Big Bets:

- Support Brand strategy with internal enablement strategies and tactics to ensure brand adoption
- Develop narrative strategies and storylines to bring brand to life
- Operationalize customer evidence engine
- Drive clarity of WEX's strategy and vision
- Consult to develop narrative strategy for wexinc.com

Media Relations and Strategy

How do we leverage our story and experts to enhance and protect our reputation?

Protects and enhances WEX's reputation by proactively pitching strategic narratives, securing targeted media coverage, and developing a corporate awards program to enhance stakeholder trust.

2026 Big Bets:

- Develop Corporate PR strategy and tactics
- Build company awards program (as budget allows)
- Refine spokesperson bench to get WEX in targeted media placements
- Mature LOB PR strategy by building deep partnership with product teams

Creative Design

How does our story come to life?

Brings the WEX story to life through compelling, customer-centered assets that break through the noise, enhance market perception, and drive revenue growth.

2026 Big Bets:

- Work with stakeholders to fully implement new visual identity
- Support go-to market efforts for all lines of business
- Refresh relationship with UX teams to ensure alignment and shared learnings
- Consult on redesign of wexinc.com

Operations

What levers, programs, and mechanisms are required to ensure we operate efficiently?

Serves as the strategic operational backbone of Corporate Marketing, driving efficiency and execution through centralized workflow governance and optimized resource allocation.

2026 Big Bets:

- Develop intake process for comms and PR requests
- Drives internal adoption with consolidated intake process
- Oversees Corporate Marketing AI program ensuring teams are incorporating AI into ways of working

Budget Optimization

Where should we invest next?

SB Brand Campaign | Digital Performance Overview

In September, the **new SB Brand Campaign** launched in select channels including Programmatic, Paid Social, and Web focusing **on awareness**. We are running three tests to inform the upcoming full rollout and demand (mid-funnel) development.

Upper Funnel Results

1.923M Impressions

1.835M Video Views

52.2K Site Visits (**6.4%**)

Mid-Lower Funnel Results

443 Apply Now Clicks
(**21%**)

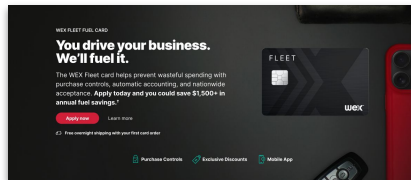

6.8K Opportunity Volume

289 App Submitted (12% of Total)

Web Messaging Test

Test two versions of hero messaging to understand how brand perception vs. value props drive user behavior.

- Test Headline - "You Drive Your Business. We'll Fuel It."
- Control - "Save up to \$1,500+ in annual fuel savings."

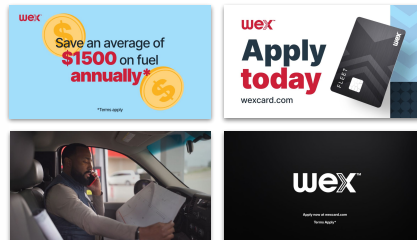

Learnings:

- Test is driving higher Apply Now click through rates by **23.9%+** when compared to the control
- Overall web traffic continues to increase MoM

Programmatic Creative Test

Test BAU video content against the SB ad campaign video to better understand the impact against typical content in market.

We are running two versions of the video, (1) BAU and (1) new video in CTV – a channel optimized for awareness.

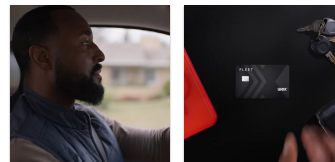

Learnings:

- New brand creative outperformed the control in CTR (**84%+**), signaling strong engagement and early interest
- Ultimately, the test drove lower conversions than the control (**3 v. 12**)

Paid Social Creative Test

Test two versions of the video, to understand what type of content drives video views.

We are running two versions of the video, (A) begins on the WEX Fleet Card while (B) begins on the worker to

Learnings:

- Garnered **1.57M** impressions
- **93.6%** of users viewing the video at 100% - benchmarks estimate an average of 50% view completion rate
- Viewership is an early indicator of success from an upper-funnel campaign standpoint, and CPV is currently **\$0.01**

These upper-funnel efforts aim to mature our retargeting pool – with customers typically **interacting with an ad 12-15 times before making a purchase decision**. This campaign will help to drive awareness as we ramp up to January, a high-traffic buying season.

To Continue in 2026: SB Value Prop Refresh

In 1H year, we focused on five key value prop initiatives to test and learn more about what **strengthens appeal with small business owner/operators** and leveraged these insights to engineer and drive efficiencies to enable **40% YTD new revenue growth in WEX portfolio**.

New Claims

Feb - March

Initiated a focused test leveraging new claims: Purchase Controls No Personal Guarantor (No PG), Flexible Credit.

We implemented claims messaging into creative across all digital and measured against the control, resulting in the **3¢ rebate (BAU) driving the highest performance (13% CVR)**.

Learnings:

- BAU should remain in-market.
- No PG showed signs of promise (**18.5% CVR** vs. 13% BAU), but most apps did not get approved (8.4% vs. **16% BAU**).

Value Proposition

March - April

Tested messaging tactics to understand what resonates with prospects.

We tested three value proposition offerings, exploring **"Savings," "Acceptance,"** and **"Brand Trust."**

Learnings:

- "Savings" and "Acceptance" performed strongly and will be prioritized moving forward.
- Acceptance messaging achieved the lowest CPA while maintaining a **high approval rate of 39%**.

Limited Time Offer

May - June

Tested first-ever WEX SB LTO—an industry standard—to play better offense vs our competitors.

We launched a two-month marketing campaign across all channels advertising **savings of 25¢ off per gallon** with no cap on the WEX Small Business card.

Upside: We brought in a record breaking volume of approved apps for the WEX SB card during *and* after the offer was in market: May-Aug **5,978** approved apps in 2025 vs 3,454 in 2024 (**+73%**). Additionally, these four months in 2025 were **+14%** vs the previous four months (Jan-Apr).

Refreshed Web

May - July

We revamped multiple wexcard.com pages to increase the rate of "apply now" clicks by ~15%.

Customer Login

Questions? Call 1-844-325-6113

Mention code Z4Z

Contact Us

Apply now

Messaging updates included LTO, overnight shipping, new value props, 180K locations, and more. **Identified additive "Apply Now" placements**, creating a more seamless experience.

Upside: UI improvements and product positioning optimizations have a meaningful effect on performance:

- **SEO:** Apply click rate increased by **+72%**
- **Paid Social:** Apply click rate increased by **+43%**

Trade Testing

May - July

Tested top industry targeting to understand performance against BAU.

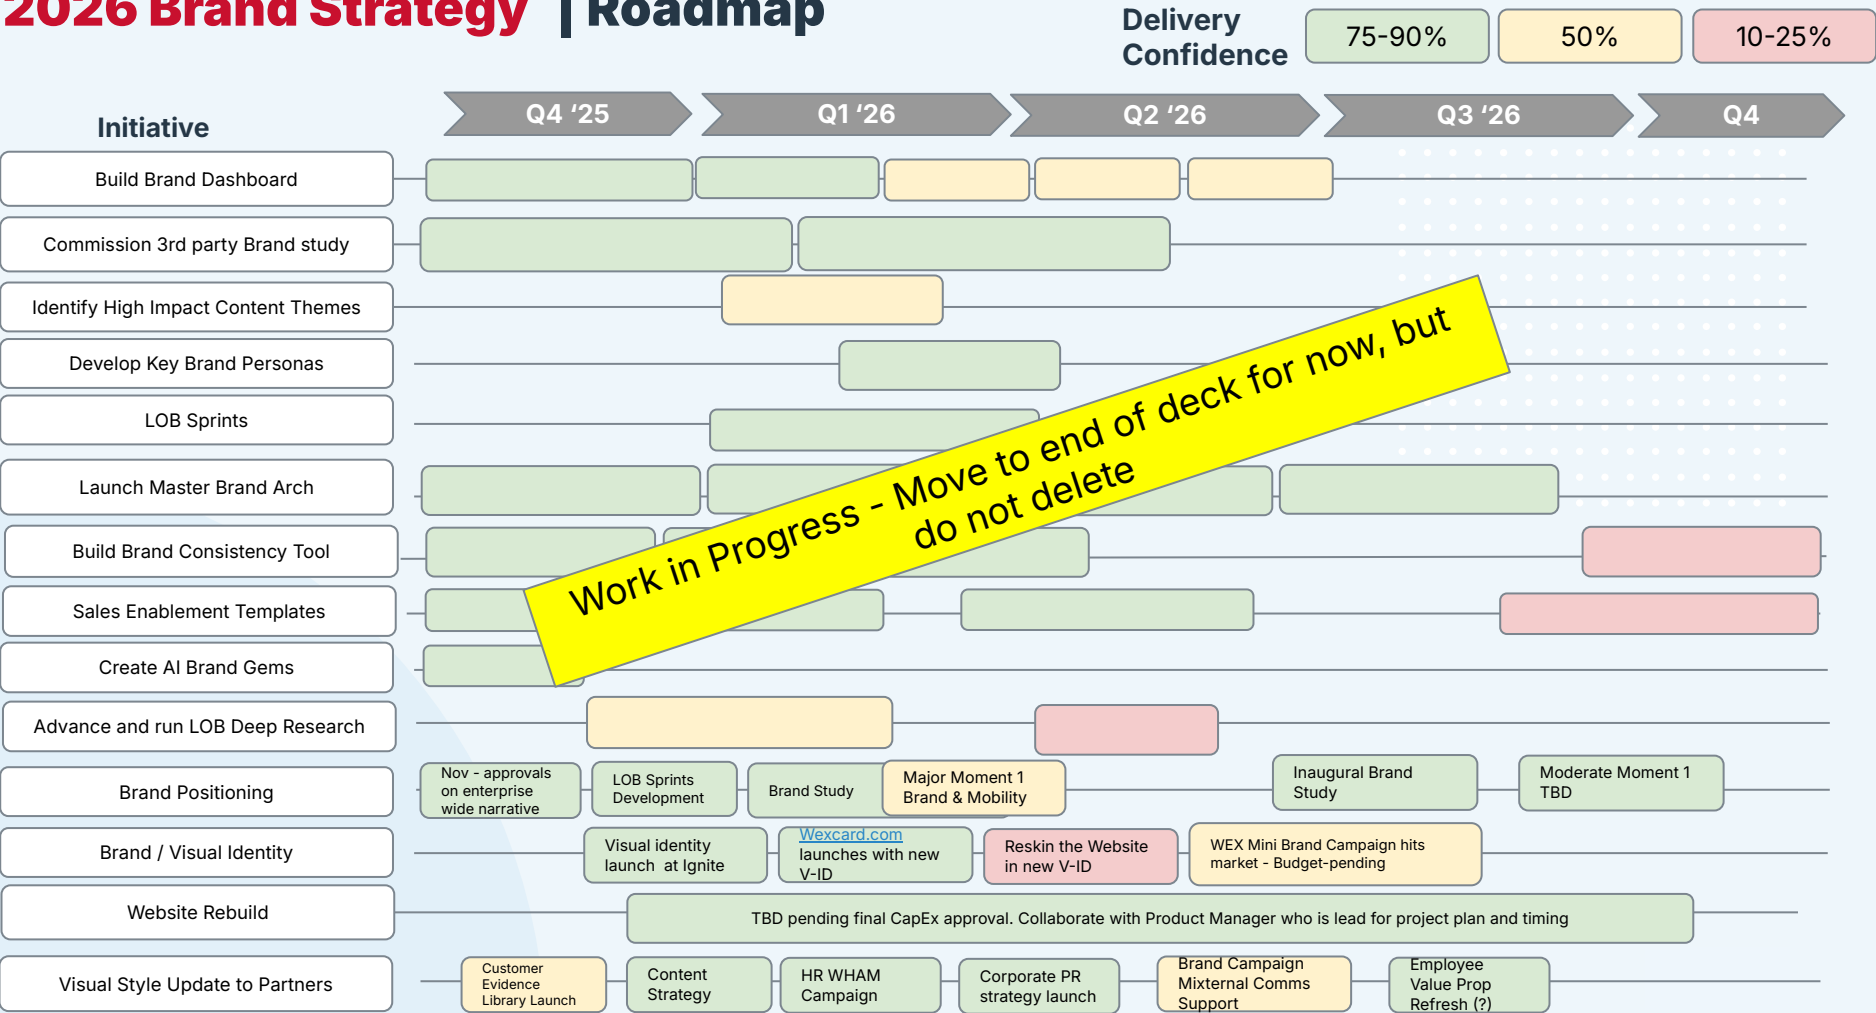

We developed industry-specific creative (HVAC, Contractors, Construction, Building Services) and ran against BAU placements.

Learnings:

- Overall, industries **do not outperform BAU**, but HVAC shows opportunity and proved to drive high-intent leads.
- Programmatic yielded low CPA of **\$89 (v. \$183 BAU)**. We will layer these audiences to improve efficiency and prioritize creative updates.
